FIG. 13

FIG. 13 is a cross-sectional view of a device, showing a housing 30 and a component 31. The housing 30 includes a top surface 72 and a bottom surface 168. A component 31 is mounted to the top surface 72. A bracket 100 is attached to the component 31, and a pin 44 is used to secure it. A cable 68 is connected to the component 31 and passes through a slot 178 in the housing 30. The cable 68 is secured by a cap 186. A screw 152 is used to secure the housing 30. A component 154 is mounted to the bottom surface 168, and a cable 172 is connected to it. A component 180 is also shown. A dashed line indicates a hidden internal feature.
